
# MiniVerde™

## MiniVerde™ Ultradwarf Bermudagrass

Championship courses around the globe choose MiniVerde for the fastest putting surfaces available. Ideal for putting greens, tees, and surrounds, MiniVerde's dense canopy creates a smooth, high quality surface for excellent ball roll. MiniVerde outperforms other commercially grown ultradwarfs with its dark green color, shade and disease tolerance, and its recovery from injury.

### PRODUCT FEATURES:

- Fastest putting surface of all bermudagrasses
- Rapid establishment
- Deep rooting
- Moderate fertility requirement
- Excellent fall color retention
- Dark green color, fine-bladed
- Excellent recovery from ball marks and spikes
- Moderate shade tolerance
- Good disease resistance
- Less maintenance required (verticutting and topdressing) than other ultradwarfs

*MiniVerde™ Ultradwarf Bermudagrass is the turfgrass of choice at some of the best facilities around the world including:*
